

Hello Chandler Heights Residents.

My name is Thom Wright and I am up for reelection to the CHCID Board of Directors. My Husband and I have lived in the Heights for only 18 years, so I don't consider us long timers. I sat on the sidelines and watched the Board, criticized the Board at meetings, and was a thorn in their side, for years. Then I was asked to fill a vacancy....and I told myself to step up or shut up.

My background is 21 years managing big box retail stores, so I get in to the minutia and structure of whatever I get involved. This attention to detail also tends to make me somewhat legalistic. During my time on the Board, my focus has been to get transparency, structure and consistency to the operations of the District.

The following is reflective of my time working with the Board:

- To get a Mission Statement (written by Elizabeth) for the District that focuses on providing quality drinking water and irrigation services.
- Compliance with State and County regulations for Board Meetings and District performance.
- Standardize pricing for all services, no more Gentleman's agreements.
- Solvency; getting us out from under a needless \$650,000 loan.
- Planning for the future, limiting our growth by limiting the number of water meters to the number of acres in the Heights.
- Getting caught up with current domestic water demands by having another supply tank in process to come online next year.

We have a wonderful mix of folks in the Heights. Some are new and want a subdivision lifestyle in a rural setting. Some are long timers that don't want anything to change from CHCID's inception in 1929. The role of the Board is to walk that fine line that meets the needs of all of these folks, and guarantees the future of CHCID.

Thank you for your vote, Thom.....
